OMEXOM

> To help companies in the Power & Grid sector deliver the promises of energy transition.

conductor

> To contribute to the continuous improvement in industrial performance.

Infratek 

> To manage and control electrical installations.

shared values. Our business units share a common corporate culture and common values, despite the diversity of their activities, brands, business lines and structures. We carry in our genes the human values of solidarity, trust, entrepreneurship, responsibility, and empowerment. The basic organisation and management principles thus remain identical for all the business units of the Group. To work with us is to share our values.

Your energy, our strength

As an employee, you are at the heart of our success. It is thanks to you, to your talent, skills and energy, that VINCI Energies attains its goals.

As an employee you are the key player in VINCI Energies' success, you are our best ambassador in the field with our clients to implement our strategies; for all of these reasons you are our best asset for moving forward together. That is why your initiatives, your projects, your ambition, your responsibility, your energy, your commitment to satisfy our clients and to evolve will enable us to continue to successfully carry out our many different projects. It is your energy that drives our group's enthusiasm, professionalism, and passion. You and your talent are our strength.

Why join us?

Because with some 1,800 business units around the world, VINCI Energies offers you a wide range of career opportunities and projects in which you can be involved.

Because VINCI Energies believe in your entrepreneurial drive. Taking initiatives, present new ideas, assessing risks... Our culture is based on a sense of responsibility and confidence in our teams and employees.

Because your fulfilment of your potential makes us stronger. Continuous development is a natural part of your work at VINCI Energies.

Because we believe in people learning from one another. Cooperation between business units and teams is an integral part of our everyday reality, namely through the network. We share resources, know-how and activities.

Discover your future job

VINCI Energies recruits a wide range of profiles. But whatever your role or position is, you will be part of something big that supports two major changes: the digital transformation and the energy transition.

A job at VINCI Energies, independently of your area of competence, role, business unit or brand, you will be part of our project-based organization with the needs of our clients in focus. A job at VINCI Energies means engaging in business

activities that are both highly technical and focused on important, meaningful issues. All the jobs available are posted on the local sites and collected here. Please find job opportunities below.

How to apply

You are seeking an internship, apprenticeship, a position or want to send a general application? You would like to work together with us? There are several options for applying.

Recruitment is done at a local level at each brand and business unit, as closely related to the operational field as possible. If you are right for the position, you will meet the people whom you will be working with in your future business unit.
